EDUCATION

Master of Computer Applications: CGPA: 8.74 — Sept-2024 - Apr-2026
GLS University: Ahmedabad, Gujarat

Bachelor of Computer Applications: CGPA: 7.66 — Sept-2021 - Apr-2024
Marwadi University: Rajkot, Gujarat

12th GSEB: Percentage: 71.43% — Jun-2020 - May-2021
Dholakiya School: Rajkot, Gujarat

10th GSEB: Percentage: 67.00% — May-2018 - Mar-2019
Shree G T Sheth School: Rajkot, Gujarat

PROGRAMMING SKILLS

Languages: C, C++, Java, JavaScript, TypeScript
Frontend Technologies: HTML5, CSS3, React.js, React Native
Backend Technologies: Node.js, Express.js, Spring Boot
Databases: MySQL, MongoDB, PostgreSQL
Tools & Platforms: Git, GitHub, GitLab, Postman, Docker, Jenkins, Vercel, Netlify, OpenProject
Soft Skills: Time Management, Teamwork

WORK EXPERIENCE

Emgage — Full Stack Developer Intern (React.js | Java) — Dec-2025 - June-2026

- Contributed to 3 production-level projects — an Onboarding Portal, Service Portal, and HRMS ESS Portal — handling both frontend and backend development across the full software lifecycle.
- Built new pages, components, and features using React.js (TypeScript) and React Native, and managed build & deployment pipelines via Jenkins CI/CD.
- Developed backend APIs using Spring Boot (Java) with PostgreSQL, and resolved numerous production bugs across multiple projects improving application stability.
- Developed a standalone Windows executable (.exe) application for automated biometric device configuration, reducing manual setup effort.

BrainyBeam Technologies Pvt.Ltd. — React.js Intern — May-2025

- Built React.js features including Hooks, state management, and client-side routing, gaining hands-on experience with modern React development patterns.

PROJECTS

BlogSpace – Blogging Website:

- Built a comprehensive blogging website using MERN stack with secure JWT and Google OAuth authentication.
- Built a feature-rich blog editor with draft/publish functionality, commenting system, trending sections, and category filtering.
- Implemented responsive UI with React and Tailwind CSS, including user dashboard, pagination, and email OTP for password recovery. Utilized MongoDB for complete data storage and management.

NEXORA:

- Built a MERN stack language exchange platform where users connect with native speakers for interactive language learning.
- Leveraged the Stream API for real-time messaging and video calls, enabling authentic language practice sessions.
- Implemented secure authentication, Zustand for state management, and TanStack Query for data fetching, delivering a smooth and responsive user experience.

INTEREST

Development and Problem-Solving in Team, Reasoning and Aptitude Solving, Cricket.
